BRIEF REPORT ON FOOD FESTIVAL COOK WITHOUT FIRE

We at BITM organized a food festival on 29/04/2017 to give awareness about the organic and healthy diet on our daily life. Tremendous response from the students gave more participation leading preparation of local foods with healthy and nutrition filled items which are very much necessary.

Students were asked with set of rules and regulations for the event where natural flavoring was allowed and not the artificial one. With the given time limit students were prepared many recipes with the naturally available ingredients. This gave the students an idea of including a healthy diet in their daily life. Some of our students showed exceptional commitment to the event by making eatable and also beverages made with fruits and vegetables. The fest itself tells they should prepare the food without the fire. This was made by using sprouts, fresh vegetables and fruits with natural flavoring substances were used for the preparation. Each team consists of two members and we gave sufficient time for the preparation so that student can be able to make their food with clean and hygienic way. With this student had the opportunity of learning the art of cooking without fire.
