National Level Faculty Development Program

17th April to 21st April 2021

Organized by

Department of Electronics and Communication Engineering

Ballari Institute of Technology and Management

Jnana Gangotri Campus, Hosapete Road, Near Allipura, Ballari, Karnataka-583104

Approved by AICTE, New Delhi and Affiliated to VTU, Belgaum

Workshop Objectives

About Department

The Department of Electronics and Communication Engineering was established in the year 1997 with an intake of 40. Presently the intake is 180. It is one of the most sought branches of engineering & technology in the modern day. The Department has an efficient and dedicated team of staff who meticulously plan, train and guide the students in their academic activities, which motivates the students to achieve higher educational levels. The department conducts regular seminars & workshops in association with industry to equip the students with practical insight and help the students to incorporate these technologies into their specializations and achieve higher educational levels. The department conducts regular seminars & workshops in association with industry to equip the students with practical insight and help the students to incorporate these technologies into their specializations.

About BITM

Ballari Institute of Technology & Management (BITM) was established in the year 1997 with the aim of providing quality education. The institution is run by TEHRD trust, Founded by Late Smt. Basavarajeshwari, Former Union Minister. The Institution is recognized by Govt. of Karnataka, approved by AICTE, New Delhi & affiliated to Visveswaraya Technological University, Belagavi. The Institution has been accredited by A+ by NAAC and is certified by ISO 9001:2015. BITM empowers the students with technical & Managerial skills, Professional ethics & values and appreciation of human creativity and innovation for an inquisitive mind. Its Place vital role in producing top quality professional to meet Industrial & Technological requirements.

Contact Person

1. Mr. Raymond Irudayaraj I
   Asst. Professor, Dept. of ECE,
   BITM, Ballari.
   Ph. No: 9972803296

Topics to be covered

:Day1:

- Welcome to the world of CHIP Designing
- Analog and Mixed Signal Flow / Latest Technology Trends / Core Expertise

:Day2:

- Fabrication technology overview
- Cost-performance trade-off
- Different layout types
- Chip Architecture
- Stick diagrams
- About Standard cell layout, Memory layout, Analog layout, IO layout
- Layout verifications
- Foundrys

Topics to be Covered in the Workshop

Day3: Full Custom Design Flow

- Introduction about VLSI
- MOSFET as capacitor, MOSFET VI characteristics,
- Schematic capture using Virtuoso
- Functional simulation Using Spectre
- Schematic Driven layout Design Using Virtuoso
- Layout editor
- Physical verification which includes DRC & LVS using Assura, Parasitic extraction, Post Layout Simulation
- Generation of GDSII, Lab Session for Participants

Day4: Semi Custom Design Flow

- Functional Verification Flow using INCISIVI
- RTL synthesis using GENUES
- DFT flow Using GENUES & MODUS
- Logical Equivalence check using conformal
- Lab Session for Participants

Day5: Semi Custom Design Flow

- TD flow which innovus that includes
  - ✓ *Floor planning*
  - ✓ *Power planning*
  - ✓ *Placement*
  - ✓ *CTS*
  - ✓ *Routing*
  - ✓ *Generation of GDSII*
- *Post layout timing sign of using TEMPUS*
- *Power sign of using VOLTUS*
- *Lab Session for Participants*

WORKSHOP REPORT

Five day online FDP on **"VLSI Design for Beginners and Advanced Users "** has been organised by the Department of Electronics and Communication Engineering for the faculty members. The objective of the workshop was to offer detailed hands on experience on various aspects of VLSI design using Cadence tools.

The program details are as follows:

1. Name of the event : **VLSI Design for Beginners and Advanced Users**

2. Dates : 17-04-2021 to 21-04-2021

3. Time : 10AM To 4:30 PM

4. Venue : EC Seminar Hall

5. Resource Persons : Mr. K Mohammed Maaz

   Director (AMS layout & physical verification)

   Mr. Chandra shekar sakala, staff Engineer Samsung Bengaluru.

6. Workshop Co-ordinator : Dr. Naseeruddin, Associate Professor ECE Dept.

Objectives of the Workshop:

- To provide an industry-academia platform
- To enhance EDA tool usage skills relevant to the industry
- To realize the importance of adapting to ever changing needs of VLSI industry

Outcome:

- Participants understood and given industry-academia platform.
- Participants have learnt EDA tool usage skills relevant to the industry
- Participants carried out various case studies to realize the importance of adapting to ever changing needs of VLSI industry

Quantized Data
Observe:
We use numbers to quantify and compare
Decimal number system → most natural to us!
Discrete / Discreet?!
Discrete → individual, distinct
Contextually → a judicious choice
Discreet → Guarded, close mouthed..
Discontinuous → Digital !!
Not a function of the number system in use!
So Why Use Binary for Digital?
Decimal → Every digit can exist in any of the 10 possible distinct levels
→ Cumbersome to build such systems
Therefore, say good bye to (2, 3, ...9)!!
→ Binary!!

Quality Metrics of a Digital Gate (01/ 04)

ENTUPLE TECHNOLOGIES

Question 1: How *robust* is the gate?

- What are the *guaranteed* output voltage levels for "0" and "1"?
  - V_{OH}, V_{OL}
- What are the *worst case* input logic levels for which the gate produces the corresponding guaranteed output logic levels?
  - V_{IL}, V_{IH}
- What are the worst case *noise* amplitudes the gate is able to overpower and provide functionally correct responses?
- Noise Margins
  - $NMH = V_{OH} - V_{IH}$
  - $NML = V_{IL} - V_{OL}$

What Is Mapping?

During equivalence checking you read in two designs to compare them.
- The design you are comparing against must be considered Golden.
- The modified must be considered Revised.

Mapping is pairing corresponding Golden and Revised key points.

Golden ← → Revised
PI← →PI
PO← →PO
DFF← →DFF

EXCEL VLSI
Delay
ENTUPLE
Delay is the time taken by a signal to change state or propagate from one point to another in a circuit.
There are two types of Delay
Cell delay
Intrinsic delay or self delay for no load on output
Cell delay/gate delay/propagation delay for a given input slew and output load: already discussed in previous session
Slew or Transition time at output for a given input slew and output load: already discussed in previous session
Wire delay
Delays due to parasitics on net/wire also called Net Delay/Interconnect delay/Extrinsic delay/Flight time

Slack
EXCEL VLSI
ENTUPLE
Slack is defined as difference between actual or achieved time and the desired time for a timing path.
Slack determines if the design is working at the specified speed or frequency for a particular timing path
Timing and slack definitions :
Arrival time - The time taken by the data to travel to the end point.
Required time - The time required for the data to travel to the end point
Slack = Required time – Arrival time
Positive Slack - Arrival time is before the required time
Negative Slack - Arrival time is after the required time.
Zero Slack - Arrival time and Required time are same.
Positive slack and zero slack are called as "Timing met"

FDP REPORT

Three day faculty Development Program on "Investing with Confidence during Pandemic" has been organized by the Department of Management studies in association with Bombay Stock Exchange Brokers Forum Mumbai and IQAC Cell, Fin Whiz Student Club for the faculty members across the world through the online mode. The program details are as follows:

Name : Investing with Confidence during Pandemic

Date : 04/03/2021-06/03/2021

Time : 2 pm-3pm

Venue/Mode: online mode (Google Meet)

Resource Person: Dr.V. Aditya Srinivas Chief Operating Officer & Chief Economist Bombay Stock Exchange Broker

Event Co-coordinator: Dr Janet Jyothi D'Souza & Dinesh K

Objective of the Event

1) To understand the role of financial planning for prospective investors
2) To identify the various emerging investment options suitable during economic crisis

Outcome:

1) Apply the knowledge of the investment and identify the best possible investments.
2) Evaluate the various investment alternatives and make investment decisions

WORKSHOP REPORT

Five day online FDP on **"5 Days Faculty Development Program on Internet of Intelligent of Things & Machine Learning"** has been organised by the Department of Electronics and Communication Engineering for the faculty members. The objective of the workshop was to offer detailed hands on experience on various aspects of VLSI design using Cadence tools.

The program details are as follows:

1. Name of the event : **5 Days Faculty Development Program on Internet of Intelligent of Things & Machine Learning**

2. Dates : 10-11-2022 to 14-11-2020

3. Time : 10AM To 4:30 PM

4. Venue : EC Seminar Hall

5. Resource Persons : Dr. Sanju Tiwari
   Dr. Celestine Iwendi
   Dr. Rashmi Agarwal

6. Workshop Co-ordinator : Dr. Abdul Lateef Haroon P S

Objectives of the Workshop:

- To provide an industry-academia platform
- To enhance the vision of semantic web
- To realize the various types of Ransomware Attacks in IoT.

Outcome:

- Participants understood and given industry-academia platform.
- Participants have understood the clear view of semantic web
- Participants carried out various case studies to realize Ransomware Attacks in IoT.

WEBINAR REPORT

One day webinar on **Overview of "Graphene"-A Prospective Material** has been organised by the Department of Mechanical Engineering for the faculty and Students.

The objective of the webinar was to offer detailed information related to Graphene special Mechanical properties and its applications across various fields.

The program details are as follows:

1. Name of the event : **Overview of "Graphene"-A Prospective Material**
2. Date : 08-07-2020
3. Time : 11AM To 12:30 PM
4. Mode of Conduct : Online
5. Application used : GOTO MEETING
5. Resource Persons : Dr. Ashwin C Gowda, Assistant Professor, VTU, Muddenahalli
6. Workshop Co-ordinator : Mr. Shiva kumar S Y, Mr. Md. Fayaz K

Objectives of the Webinar:

- To provide brief introduction to advanced materials.
- To give information on how Graphene material is different from conventional materials.
- To provide information related to Graphene material properties.
- To provide information related to various application fields of Graphene material.

Outcome:

- Participants understood what are advanced materials.
- Participants have learnt about material properties of Graphene material.
- Participants have learnt about various application fields of Graphene material.
