Faculty members must be consulted regarding which materials are acceptable for students to use on any assignment, quiz, or exam. Not complying with the restrictions of the faculty will result in appropriate discipline, as decided by the instructor or department. Cheating also includes using the same material of work previously used for another course unless the student has permission from the instructor to do so. Cheating furthermore includes plagiarism, which is when a student uses the ideas of another and declares it as his or her own. Students are required to properly cite the original source of the ideas and information used in his or her work. • Stealing is the act of taking without permission and without intention to return. The prohibition of stealing includes property of any nature as well as academic work.

##### III. Respect for National/State/District/College Rules and Regulations
